EPA Portfolio Manager and ENERGY STAR Score

(Fort Collins Utilities Customers Only)

City of Fort Collins business customers are now able to receive an EPA ENERGY STAR score through Efficiency Works participation.

EPA's ENERGY STAR Portfolio Manager is an online tool organizations can use to measure and track energy and water consumption, as well as GHG emissions. It can be used to benchmark the performance of one building or a whole portfolio of buildings, all in a secure online environment. Forty percent of commercial building space in the U.S., including 35% of the Fortune 500® are already benchmarking in Portfolio Manager.

I have an EPA Portfolio Manager account

I want an ENERGY STAR Score but do not want an Efficiency Works Business Assessment

I want my building to receive an ENERGY STAR score and an Efficiency Works Business Assessment
